

BUSINESS DEVICES THAT ARE A CLASS APART

The ultimate productivity notebook, ThinkPad T Series will keep users productive all day with long battery life, docking and enhanced connectivity options, security and manageability features.

ThinkPad T14 Secure Access Gen 1

Smarter
technology
for all

Lenovo

Designed for businesses seeking advanced security features in a portable, high-performance device. This 14" laptop comes with an RFID reader and NFC sensor enabling simplified secure access via all major single sign-on (SSO) providers, and can easily be integrated into existing facility badge access solutions. Device access can also be secured through the US federal-approved FIPS-201 fingerprint reader or the optional IR camera for facial recognition.

REASONS TO BUY

10th Gen Intel Core processors, a 16-hour battery and optional 4G WWAN connectivity allow mobile users to stay productive from anywhere. An anti-glare FHD display and Dolby Audio Speaker System enhance the audio-visual experience when web conferencing or watching a video.

16hrs battery life and optional 4G WWAN connectivity allow users to stay productive from anywhere. Optional PrivacyGuard display digitally renders the screen unreadable to protect against shoulder surfers. There's also a built-in webcam cover to ensure user privacy isn't compromised.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
