Location Services

Models	Location
WWAN models	Beidou + GPS + GLONASS + Galileo + QZSS + A-GPS
WLAN models	No location service

Notes:

[1] Wi-Fi® 6E operation is subject to the regulatory requirements of each country.

[2] Lenovo® ThinkTab X11 Gen 1 is designed and positioned as a data-only tablet and does not support traditional voice calling functionality. Messaging services such as Short Message Service(SMS) and Multimedia Message Service(MMS) depend on the capabilities of the mobile network and carrier-supported services, such as IP Multimedia Subsystem(IMS). As a result, availability, performance and reliability of such services may vary by carrier and network environment, and intermittent delays or failures in sending or receiving messages may occur. These characteristics are inherent to the product's design and intended use, and should be considered when selecting and using the device.
