

LENOVO D20

A DISPLAY OF SIMPLE GREATNESS

THE MONITOR THAT'S GROUNDED IN QUALITY

Starting studies, or a career, Lenovo D20-20 puts essential features and uncompromising quality right in your sights. With its 19.5-inch, In-Plane Switching panel, you can view the screen from angles as extreme as 178° horizontally or vertically and you'll see the same accurate colors and rich contrast levels. Stand up, walk around the room. It all looks just as good. Its resolution of 1440 x 900 and 16:10 widescreen aspect ratio takes fuller advantage of online course video content, movies or spreadsheets without taking up your valuable home space.

D20-20 can keep up with your gameplay too thanks to a response time of just 4ms that rapidly redraws pixel colors to keep images free from ghosting and streaking. And, with your health and comfort in mind, D20-20 is TÜV Low Blue Light certified, cutting out eye-straining, high-energy blue wavelengths so that you can work or play with peace of mind even for long sessions. Besides, its stand tilts the screen between -5 and 22° to give you the most comfortable viewing angle. Or, if it suits you better, it can be wall-mounted through its 100 mm x 100 mm VESA capability.

Connecting to modern or older PCs, laptops, games consoles or other devices is easy with both HDMI and VGA connectivity, so there's plenty of flexibility to match whatever you have at home. And with ENERGY STAR, TCO and EPEAT certification, D20-20 even helps with your energy efficiency.

FEATURES OF LENOVO D20-20 MONITOR

All-around better viewing

Lenovo D20-20's 19.5-inch In-Plane Switching panel display gives you the same vivid picture from any angle, free from color distortion. Even your whole family crowded round your desk to watch your new high score or help with homework will see the same quality up to 178° horizontally or vertically. The 1440 x 900 resolution, 16:10 aspect ratio delivers widescreen images to make more of online lesson videos or stream your favorite drama.

Daring speed. Caring technology.

Get into game mode and D20-20 will make sure your every move plays out free of image streaking or ghosting thanks to a response time of 4ms that redraws pixels faster. Even typing reports late into the night, you can rest assured that the monitor's TÜV Low Blue Light-certified technology protects against eye fatigue by cutting out harmful blue wavelengths. ENERGY STAR, TCO and EPEAT certification mean the monitor has globally recognized energy efficiency for even greater peace of mind.

Connected and compatible

Hook D20-20 up to your PC, a laptop, your games console or even a phone thanks to VGA and HDMI connectivity. Dongles, adaptors or abandoned devices are a thing of the past. The ergonomic stand tilts the screen between -5 and 22° so that you can always view it from the comfortable position, letting you focus on work or play. And, for even greater versatility, you can take the monitor off the desk and mount it on the wall instead by the 100 mm x 100 mm VESA mount-ready holes on the rear.
