

BUSINESS DEVICES THAT ARE A CLASS APART

The entry-level ThinkPad, E Series features the famous keyboard and trackpoint, and is MIL-SPEC tested ensuring the build quality for which ThinkPad is renowned.

ThinkPad E14

Smarter
technology
for all

Lenovo

This entry-level ThinkPad has great audio with Skype-certified mics and Harman speakers, security features to protect your data, a stylish angled edge that makes it easier to open the lid, and a narrower frame around both the screen and keyboard. Smart Power On - an optional feature which replaces the power button with a fingerprint sensor - enables users to instantly switch on the device and log in at the same time.

REASONS TO BUY

This lightweight 14" laptop has a MIL-SPEC tested design, anti-glare FHD display, and up to 12.5 hours of battery life, so mobile users can stay productive on the road.

Optional WiFi 6 technology; with compatible routers and access points this enables more devices to connect at the same time without reducing bandwidth and benefit from lower latency between the device and access point.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
