

**BUSINESS DEVICES THAT ARE A CLASS APART**

The ultimate productivity notebook, ThinkPad T Series will keep users productive all day with long battery life, docking and enhanced connectivity options, security and manageability features.

## ThinkPad T14s Gen 1 (AMD)

Smarter  
technology  
for all

Lenovo

Powered by the AMD Ryzen PRO processor with up to 8 cores, this 14" workhorse delivers the flexibility and responsiveness mobile workers need today. Whether working on cloud-based applications, collaborating remotely on a team presentation, or generating routine reports, it can breeze through day-to-day tasks. At 1.27 kg (2.81lbs), it is remarkably lightweight yet offers MIL-SPEC durability and a battery that can last up to 16 hours.

### REASONS TO BUY

With Modern Standby, busy professionals can configure the device to receive important updates even with the lid closed, and resume in a second when needed – just like a smartphone. Optional 4G WWAN module enables reliable connectivity when Wi-Fi network is weak or unavailable.

Choose the optional Privacy Guard screen; at the touch of a button, this renders the display unreadable for anyone peering from behind or adjacent to the user.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.
