ThinkPad Z Series Haptic Touchpad Settings

There are 2 ways to get to the Haptic Touchpad settings menu:

• Double tap the TrackPoint to launch the Quick Menu (1)
• Click ADVANCED SETTINGS to launch the Elan Touchpad menu (1a)

Here you can adjust the amount of force needed on the Touchpad surface.

From the Elan Touchpad menu (1a), you can click Touchpad under Related settings to launch Touchpad settings (3), where you can adjust feedback intensity / sound and other features.

• You can also reach Touchpad settings (3) directly from the Windows settings menu by clicking on Bluetooth & devices (2) > Touchpad
• Elan Touchpad menu (1a) can then be reached by clicking Settings at bottom
