Speed, performance, and security. The Lenovo™ IdeaPad™ S530 gives you all of this and more. Designed for both productivity and downtime, this sleek, light laptop boasts Harman® speakers, Dolby Audio™, and a 13” near-edgeless FHD display. It also has up to an 8-hour battery life that recharges quickly. You can configure it, too—with discrete graphics, secure fingerprint reader, and a backlit keyboard.

WHY YOU SHOULD BUY THE LENOVO IDEAPAD S530

Superb surround sound
The IdeaPad S530 comes with premium Harman® speakers optimized with Dolby Audio™ as standard. Delivering a sound that’s always crisp and clear, it means that you can enjoy your music, movies, and TV shows to the full wherever you go.

More screen, less bezel
The 13.3” FHD display shows everything in vibrant detail—and from different angles, too. Your viewing experience is enhanced by up to 72% color gamut, and very thin bezels on three sides of the screen (only 6.25 mm, on the left and right; and 8.52 mm, across the top), creating a near edgeless display.

It’s the little things that matter
From the seamless power of up to Intel® Core™ i7 processing to the soft-touch keyboard and touchpad, the IdeaPad S530 is engineered to help you achieve more, more quickly. It’s also surprisingly light and thin—just 1.25 kg, enabling you to work, rest, or play from anywhere.

Password? It’s on the tip of your finger
With the optional fingerprint reader, you can log into your IdeaPad S530 safely and quickly with your finger. As well as being faster than typing a password, you can rest easy as all your personal information is wrapped in three layers of encrypted security.
